

\$8 Million Available

CALFED Bay-Delta Program Research Grants Science Program 2009 Proposal Solicitation Package

Sacramento, CA – The CALFED Science Program is announcing a solicitation for research proposals in support of the CALFED Bay-Delta Program.

The goal is to fund research into the current and changing Bay-Delta system. A total of approximately \$8 million will be available for research in four topic areas:

TOPIC 1	Native Fish Biology and Ecology
TOPIC 2	Food Webs of Key Delta Species and their Relationship to Water Quality and other Drivers
TOPIC 3	Coupled Hydrologic and Ecosystem Models
TOPIC 4	Water and Ecosystem Management Decision Support System Development
